

# Standards Watch

Volume 16, Issue 1

## From the Director's Desk

James Amano, Senior Director

### ***New ATE Standard Passes the Test***

Standards that allow for easy implementation of client-server-based functionality services for ATE operations. [Read More](#)

---

### **Introducing New MEMS Standards**

MSIG's Working Groups feed the SEMI Standards Program new activities by identifying industry challenges. [Read More](#)

---

### **200 mm Silicon Carbide Wafer Specification and Marking**

An update on 200 mm silicon carbide wafers and markings standards. [Read More](#)

---

### **Equipment RAMP Standard Updated**

SEMI E10 has been updated to include new work-related metrics for subsystems and other improvements. [Read More](#)

---

### **Emerging Standard Helps Address Cybersecurity**

Outcome of new standards activities expected to promote the principles of security by design, in operation, and maintenance in production lifecycle management. [Read More](#)

---

### **New Silicon Carbide Test Method Task Force Formed**

A need for a standard to specify the TSD density of a substrate material brings silicon carbide end users and suppliers together. [Read More](#)

---

### **Building Information Modeling Document Out for Ballot**

SEMI ballot on BIM is currently out for voting in Cycle 2. [Read More](#)

---

### **New Japan Flexible Hybrid Electronics Technical Committee Chapter**

Japan chapter will work together with the Taiwan chapter to develop globally accepted standards for flexible hybrid electronics. [Read More](#)

---

### **SEMICON Japan Standards Awards**

SEMI honored industry leaders for their outstanding accomplishments in developing Standards for the electronics and related industries. [Read More](#)

---

### **New SEMI SCIS Activity Launched on Chamber Parts Cleaning**

SEMI SCIS Technology Community addresses defectivity challenges from parts cleaning of critical chamber components. [Read More](#)

---

### **SEMI EHS COVID-19 Working Group Updates**

Hot SEMI EHS COVID-19 working group topics include vaccinations, policy enforcement, contact tracing, and OSHA compliance. [Read More](#)

---

### **Standards Calendar**

April 21, 2021

[Voltage Sag for Manufacturing Fabs Workshop](#)

10:00-14:00 Pacific
