semi | Electronic System Design Alliance

Company Name:

Applying for Voting Membership in the ESD Alliance
      or
Applying for Non-Voting Membership in the ESD Alliance

My company is already an active SEMI member
      or
My company has submitted an application to join SEMI

Primary Member Contact Information (required)

Company Name			
Contact Name		Title:	
Address (line1)			
Address (line2)			
City		State/Province	
Zip/Postal Code		Country

Notes:
Questions about the membership application? Contact bsmith@semi.org
Committee Contact information does not need to be filled in to apply for membership.
Members can request to participate in committees at any time.

Your application for membership will be sent to the ESD Alliance Governing Council for approval.

ESD Alliance Membership Requirements and Types

The Electronic System Design Alliance (ESD Alliance) is a SEMI Technology Community. Membership in the ESD Alliance requires an active and currrent membership in SEMI. There are no additional member fees required to join the ESD Alliance.

VOTING MEMBERSHIPS

Voting members are companies engaged in providing goods and services to the semiconductor electronic system design ecosystem. Common examples include EDA and Semiconductor IP suppliers. Membership entitles your company to vote on the selection of ESD Alliance Governing Council members, policies, have employees participate or serve as an officer in ESD Alliance committees and working groups, use of the ESD Alliance's logo in promotions, receive invitations to meetings, and receive all pertinent correspondence.

NON-VOTING MEMBERSHIPS

Non-voting members include organizations not actively engaged in providing goods and services to the semiconductor electronic system design ecosystem, but which are often customers of products and services from voting member companies and/or are associated with and interested in the design ecosystem. Common examples include IDMs and fabless semiconductor companies or electronics product manufacturers, high-performance computing suppliers, cloud services providers and license management software suppliers. Non-voting memberships do not include voting rights nor the ability to nominate candidates to serve on the Governing Council. Non-voting membership does entitle employees to serve on committees and working groups, attend most meetings, use the ESD Alliance logo in promotions and receive all pertinent correspondence from the ESD Alliance.

APPROVAL OF MEMBERSHIP

Per the ESD Alliance Bylaws, all membership applications (whether for voting or non-voting membership) must be approved by a 2/3 majority of the ESD Alliance Governing Council.

ESD Alliance Mission Statement

The Electronic System Design Alliance (ESD Alliance), a SEMI Technology Community, is the central voice that communicates and promotes the value of the semiconductor design ecosystem as a vital component of the global electronics industry. As an international association of companies providing goods and services throughout the semiconductor design ecosystem, it is the forum that addresses technical, marketing, economic and legislative issues affecting the entire industry.
