MEMBERSHIP BENEFITS

MEMBERSHIP INFORMATION

Membership classification and dues are based on combined annual sales revenues in these and other advanced technology supply chain areas.

CORPORATE MEMBER

Suppliers of goods and services to the global electronic product design and manufacturing supply chain. For manufacturing this includes equipment, materials, sub-assemblies, components and industry specific support products, and services to semiconductor, display, MEMS, LED, flexible hybrid electronics and related industries. For the design ecosystem this includes providers of EDA software and hardware, IP, embedded software, design and verification services, software platforms used to build automation solutions, and design data management.

ALLIED MEMBER

Organizations that are not-for-profit research, education, advocacy, or regulatory services, including libraries, consortia, and academic institutions.

ASSOCIATE MEMBER

Companies that design, manufacture, sell, or distribute semiconductor devices, displays, and related microelectronics are in this category. This includes, but is not limited to, integrated device manufacturers (IDMs), foundries, fabless, fab-lite, electronic design companies and software vendors that supply software to support design or manufacturing.

AFFILIATE MEMBER

Includes companies that provide products and services to facilitate development of the ecosystem, but are not specific to, or a part of, the design and manufacturing supply chain. Examples include publishers, freight forwarders, financial institutions such as investment banks, venture capital firms, analysts and other professional services firms.
