FAB REPORTS

FORECASTS — CAPACITIES — INVESTMENTS

WORLDWIDE SEMICONDUCTOR MARKET

FOUNDRY— MEMORY— MEMS & SENSORS — OPTO — POWER — COMPOUND

SEMI fab reports give you unparalleled access and insights to past, present and future global fab activities, including spending for equipment and construction, capacities, technology nodes, products, and wafer sizes. Empower your market research, identify target customers, and analyze investment and technology trends for your region with this comprehensive and dynamic dataset.
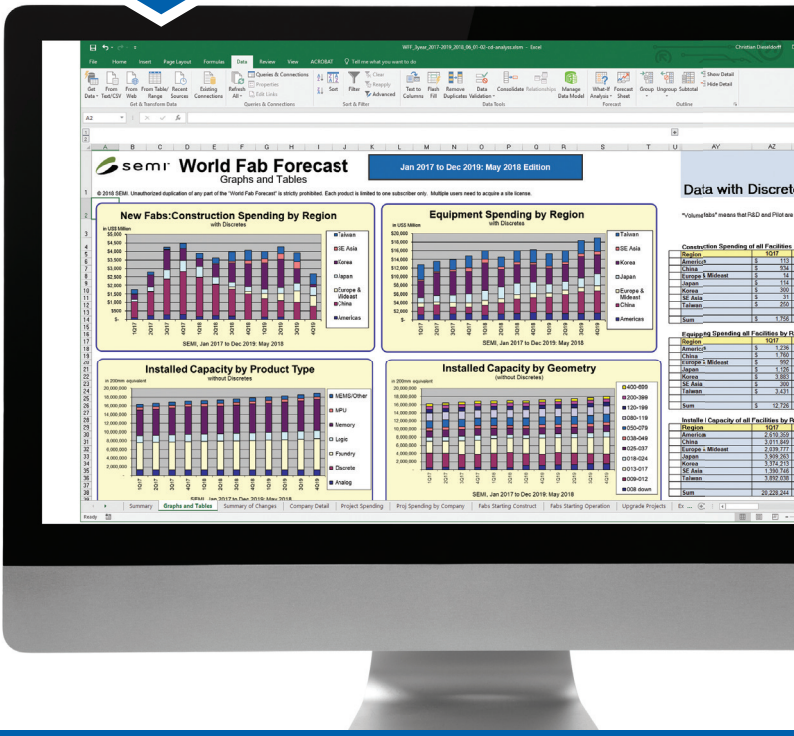

FEATURES

- Executive summaries and high-level trends presented in more than 10 charts and 100 tables
- Three years of data with past, present and forecasts out through next year
- Complete fab-cycle coverage, fab by fab, from planning, construction, production, and closure
- Fab-by-fab details on spending, capacity ramp, product type, technology node and wafer size transition
- Quarterly Excel fab reports for data analysis and modeling by companies and by fabs
- Online access to the most current data via *SEMI FabView*

BENEFITS

- Access to the leading industry benchmark used by financial communities and experts around the world
- Rich in content with verified and validated fab information
- With *SEMI FabView,* connect online to the latest fab updates anytime and anywhere
- Easy look-up, analysis and modeling to help you to stay on top of:
  - Latest technology trends and Tier 1 suppliers
  - Capacity and spending plans of leading device makers and foundries
  - On-going 200 mm and 300 mm development and transitions
  - Latest expansion plans and fab closures and transaction

METHODOLOGY

Information about individual fab projects is updated regularly throughout the quarter by interviewing company executives, visiting companies, monitoring financial announcements, news releases and other important events throughout the year and then analyzing and modeling the data. Using a bottom-up approach looking at data, company-by-company and fab-by-fab, a dedicated team with more than 30 years of industry experience manages our data collection, verifies, and analyzes our data on a daily basis.
